

Refuse SoCalGas Smart Meters

Question: I just got a notice that the gas company, SoCalGas wants to install an "Advanced" Meter...is this the same as the Edison smart electric meter that I declined? Ugh, not again!!

Answer: **Yes.**

Solution: Choose to keep your safe **ANALOG** meters, file a complaint and educate others. It's as easy as 1..2..3...

Remember: The utility companies want to extend the wireless smart grid to electricity, gas and water. Keep an eye on your local **water** departments, too.

1. CHOOSE a safe ANALOG gas meter (800) 427-2200

Fee: \$75 plus \$10 per month (CARE customers \$10 plus \$5 per month)*

*Yes, it's an unfair rip-off scheme. *Not only are forced to pay to retain your health, privacy and safety, but you have to pay twice!* (see **CPUC Complaint Summary - below**).

2. FILE A COMPLAINT ON THE DOUBLE PENALTIES

Send an email to the California Public Utilities Commission at Public.Advisor@cpuc.ca.gov or call (866) 849-8390. You can also file an online complaint with CPUC's Consumer Affairs Branch.

See **CPUC Complaint Summary (below)**.

3. EDUCATE your friends, family and neighbors

We have **NEW UPDATED brochures** to help you get the word out in your neighborhood. Contact us at info@stopocsmartmeters.com to request your copies.

CPUC Complaint Summary (above): Angry California customers refuse Smart Meters based on **health, privacy, pricing and safety concerns**. The CPUC relents and proposes a **temporary "Opt Out" decision with penalties** for PG&E and SDG&E customers who pay **one** "Opt Out" penalty to keep their safe analog electricity and gas meters. However, here in Southern California both Southern California Edison and Southern California Gas are allowed to charge an Opt Out penalty for SCE as well as for SoCalGas. Thus, Southern Californians pay **DOUBLE Opt Out penalties** to have both a safe analog electric and a safe analog gas meter – that's **DISCRIMINATION**. As the Opt Out decision is not only temporary, we **AWAIT** the CPUC decision (postponed **5 times!**). How Smart is that?
