

Public Health Alert

Get Rid of Your **Toxic** Smart Meter!

If privacy, health, security & safety are important to you, CALL:

SDG&E

(877) 357-8525

SCE

(800) 810-2369

SoCalGas

(800) 427-2200

Choose a Safe Analog Meter:

- **To Opt Out** of the Smart Meter SCAM. SCE or SDG&E will come to your home and replace your Smart Meter with an electromechanical meter*** (or will apply stickers to your old electromechanical meter). There is an initial cost of \$75 and \$10 per month. (Note: Replacing your Smart Meter with an electromechanical meter may reduce your electric bill over time as Smart Meters have been known to over-calculate and overbill customers.) Prepare to be intimidated with threats of “we are all out of analog meters” and other tactics.

File a Complaint on Double Penalties and Extortion:

- **File a Complaint with the CPUC** Contact the California Public Utilities Commission (CPUC) with an email to Public.Advisor@cpuc.ca.gov, call (866) 849-8390, and file an online complaint with CPUC's Consumer Affairs Branch.
- **Double Penalties:** CPUC allows Southern California Edison and Southern California Gas to **each** charge Opt Out penalties. However, PG&E and SDG&E customers pay only once to keep safe analog meters. SCE/SoCalGas customers face discriminatory DOUBLE Opt Out penalties as compared to other Californians.
- **Extortion:** Paying a fee to protect one's health, privacy and safety is illegal.

***INSIST on ONLY an ANALOG meter (NOT a “digital” as they still emit radiation and collect private data) per CPUC Ruling Docket #: A.11-07-20.
